

621 HIGH PERFORMANCE TROMMEL

With over twenty years of experience, McCloskey International is the world's leading trommel manufacturer and has pioneered trommel design and innovation. Over this time, the 621 Trommel has established a proven reliability in construction and demolition, topsoil, compost, waste recycling, and many other large screening applications. With a 174 HP Tier III CAT engine, accessible engine bay, and high efficiency diesel hydraulic system the 621 is sure to deliver the maximum operating time.

The 621 Trommel Screener is suited for large heavy duty applications where production rates can reach 200+ tph in topsoil and sticky material or 300+ tph in sand and gravel.

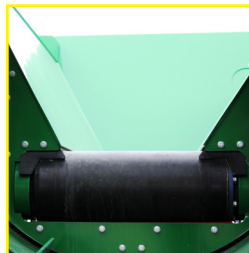

Oversize Conveyor
36" wide oversize reject conveyor at the end of the trommel offering magnetic pulley, vacuum system and high speed de-stoning belt.

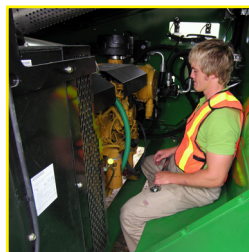

Adjustable Brushes
User-friendly ground level adjustable brushes provide efficient control over screening operations and minimize downtime.

Radial Conveyor
Patented 42" wide radial conveyor allows for stockpiling at a 180° angle at variable heights.

Feed Conveyor
42" wide feed conveyor fitted with internal drive replaces external chain drive system to improve maintenance.

Large Engine Bay
Ground level large and accessible engine bay and hydraulics package for easy access and maintenance.

621	Engine: 174 hp (130 kw) Diesel	621 HIGH PERFORMANCE TROMMEL
	Transport Height: 13' 6" (4.15m)	
	Transport Length: 59' 6" (18.14m)	
	Transport Width: 8' 6" - 9' 7" (2.59-2.92m)	
	Stockpile Height: 15' 6" (4870mm)	
Weight: 51,500 - 74,500 lbs (23,400-33,700 kg)
